

TECHNOLOGIES

In Pentland, we endeavour, even from the early stages, to develop the life skills that are recognised as being important for success in the world of work.

The Technologies curriculum has six organisers:

- Technological developments in society
- ICT to enhance learning
- Business
- Computing science
- Food and textiles
- Craft, design, engineering and graphics.

Pentland Pupils are taught skills in ICT throughout their Primary years. These skills are taught both discreetly and as an integral part of other curricular areas to enhance learning and develop skills for life.

For more information on Technologies please click [here](#).
